HSK 4 Say it aloud 31: opinions, plans and suggestions

HSK 4 speaking: opinions, plans and suggestions, taught from the reviewed topic handout; classroom examples, not official exam items.

Strong views, soft edges

Strong views, soft edges: claim with **认为**, cushion with **不过**, suggest with the friendly three.

- Opinion: **认为**/**觉得** + **而且**. Plan: **打算**/**准备** + time anchor.
- Suggestion: **不如**, **应该**, **最好** — none of them commands.

The opinion frame

Claim, second leg, cushion

我认为应该多锻炼，而且对身体特别好。

Cushion: 我认为他做得对，不过方法可以更好。

觉得 with friends; 认为 in formal answers.

The plan frame

Decided vs underway

我打算明年去北京工作。Decided: next year, Beijing.

我正在准备考试。Underway: preparing now.

A plan without a time is a wish.

The friendly three

Lighter, ought, best

不如坐地铁吧。Let us take the subway instead.

你应该早点休息。You should rest earlier.

最好提前买票。Best to buy tickets ahead.

The 2-minute answer

Claim, commitment, invitation

Claim: 我认为健康最重要。

Commitment: 所以我打算每天跑步。

Invitation: 你也可以，不如我们一起吧。

Watch out

Two guards

One ought per turn: do not stack 应该 twice in a breath.

不如 needs an earlier option; with none, use 最好. 吧 and 啊 are not interchangeable.

Check yourself

Four checks

Which word adds a second reason to an opinion?

Decided plan vs already preparing: which word for each?

The lightest of the friendly three?

Why does 不如 need something said before?
