

Exercise walk-through

2.1

Research and embodied convention: supported rehearsal

International Baccalaureate · IB Diploma · Theatre · SL

1

The method

Method — Worked example

A tradition inquiry needs reliable credited sources about context, function and a specific convention. Explore the convention safely and reflect on what practical experience reveals beyond reading; respect restrictions and avoid claiming to represent a whole culture.

Task: a pupil copies a movement from an unattributed clip and calls it a tradition. Improve the plan.

Establish the source and eligible previously unstudied tradition, verify meaning and restrictions with reliable material, then select one bounded convention for approved practice. Record first and revised trials and explain the researched reason for change.

Method — Worked example

Record first and revised trials and explain the researched reason for change

Original source / task evidence

Task: a pupil copies a movement from an unattributed clip and calls it a tradition.
Improve the plan.

Separate what is stated from the interpretation.
Research and embodied convention

Original classroom evidence panel for Research and embodied convention

Exercises 2.1·3.1

2.1 For the worked case, identify the evidence and a conclusion it can support. Explain one material limit. [3]

3.1 A practitioner source contradicts an online caption. How should research and exploration respond? Give a reasoned answer, evidence or method, and a relevant qualification. [3]

Exercises 2.1·3.1

2.1 For the worked case, identify the evidence and a conclusion it can support. Explain one material limit. [3]

2.1 Establish the source and eligible previously unstudied tradition, verify meaning and restrictions with reliable material, then select one bounded convention for approved practice. Record first and revised trials and explain the researched reason for change. Authored points for identifying relevant evidence, explaining a supported inference and a material limit.

3.1 A practitioner source contradicts an online caption. How should research and exploration respond? Give a reasoned answer, evidence or method, and a relevant qualification. [3]

3.1 Check authorship, context, purpose and the precise convention, compare reliable evidence and retain the uncertainty. Revise approved practice if warranted and credit the source. Neither a convenient caption nor practitioner status alone settles every contextual claim. Authored points for a relevant judgement, reason tied to the case and justified qualification or method. Accept a supported alternative.
