

Question 31 (Answer: **D**)

- Artificial insemination, captive breeding and IVF are all used to breed endangered *animals*.
- A seed bank stores seeds, so it conserves plant species.
- So the seed bank is the technique that does not apply to animals.

Question 38 (Answer: **A**)

- Biodiversity is the number of different species in an area.
- A population is all the individuals of *one* species.
- An ecosystem includes the physical environment, and conservation is the act of protecting it.
