

5 Internet and the Web – Part 1 — Answers

Answers

Work through these after trying the questions yourself.

5.1 The worldwide network of connected computers.

5.2 The collection of web pages (carried on the Internet).

5.3 No — the Web is carried on the Internet, but they are not the same.

5.4 Uniform Resource Locator.

5.5 `www.bbc.com`.

5.6 **https** is the *protocol* (the rules for transferring the page); **www.bbc.com** is the *domain name* (it identifies the web server); **/news** is the *page* (the path to that page on the server).
