

5 How a page reaches you – Part 2 — Answers

Answers

Work through these after trying the questions yourself.

5.6 The client.

5.7 The web server.

5.8 A small text file stored on your computer.

5.9 Your login details, or your settings/preferences (any one).

5.10 On your computer (in the browser).

5.11 The site stores a small text file (a **cookie**) on your computer recording your basket. When you return, your **browser sends the cookie back** to the server, which reads it and restores the items — so the basket is remembered.
