

9 Field types and SQL – Part 2 — Answers

Answers

Work through these after trying the questions yourself.

9.6 Text (a string).

9.7 Number (an integer).

9.8 Structured Query Language.

9.9 It picks which fields (columns) to show.

9.10 It sets a condition — which records to include.

9.11 `SELECT name FROM students WHERE age > 15` — **SELECT** picks the *name* field, **FROM** names the *students* table, and **WHERE** keeps only records with *age > 15*.
